51	The financial Worthiness of the participating Vendor has been shown a little less considering the value of the proposed contract. The amount of Rs.3.5 Crore, we feel is too less for a contract estimated to be of Rs.12 Crore, which might also increase considering the importance of the project and the timeline for completion. A participating Vendor having a turnover of Rs.3.5 Crore only per annum, would not be in a position to execute a project of such an enormous value within a span of 4-5 months. And hence the financial worthiness for evaluation Criteria should be increased to a level that the successful Vendor is in a position the complete the project in the timeline	RFQ cum RFP Conditions shall remain same.
